Top Tips (from NHS: <https://www.nhs.uk/mental-health/children-and-young-adults/help-for-teenagers-young-adults-and-students/tips-on-preparing-for-exams/>)

- ✓ **Make a realistic revision schedule.** Work out how much you have to do and the time you have to do it in, then break it down into manageable chunks. Aim to do a few hours of revision each day, and mix up your subjects so you do not get bored.
- ✓ **Find a revision style that suits you.** Studying alone in a quiet room suits some people, but not everyone likes working in silence. Try playing music quietly in the background, or revising with a friend (but do not let them distract you!).
- ✓ **Customise your notes to make them more personal.** Experiment with colour coding, notes on postcards, diagrams or whatever helps you learn your topic.
- ✓ **Make sure you understand everything.** If you come across something you do not understand, try to find a new source of information that will help you understand it. Just memorising it will not help you in your exam. Do not be afraid to ask your teacher or a friend for help if you need it.
- ✓ **Look at past exam papers.** It means you can familiarise yourself with the layout and type of questions you'll be asked. Practise completing exam papers in the set time limit to improve your exam technique.
- ✓ **Take regular short breaks.** Studying for hours and hours will only make you tired and ruin your concentration, which may make you even more anxious.
- ✓ **Reward yourself.** For example, you could take a long bath, listen to music, spend time with friends or watch a good movie once you have finished your revision session.
- ✓ **Do something physical.** When you're not revising, use your spare time to get away from your books and do something active, like going for a walk or doing some stretching. Exercise is good for taking your mind off stress and keeping you positive, and it will help you sleep better.
- ✓ **Ask for help.** If you're feeling stressed, it's important to talk to someone you trust, such as a family member, teacher or a friend. Lots of people find exams difficult to deal with, so do not be embarrassed to ask for support.
