### **Parental letter for reports**

Dear Year 11 parents/guardians,

I am writing to provide you with an update on your child's progress following their recent mock examinations. We understand that Year 11 is a pivotal year, and these mock results are an important milestone in their academic journey. The report you will receive details your child's behaviour, effort, and progress, with a particular focus on their mock exam performance, FFT5 target, and teacher predictions.

Please note that this is the first set of mock exams where nearly all the content has been covered. While mock exams offer a valuable insight into where students currently stand, it is important to remember that these results are a learning experience and an opportunity to reflect on areas for growth.

At the beginning of the report, you will see some key summary figures:

- **Average Mock Result**
- **Average FFT5 Target** (a highly ambitious target based on national performance data for similar students)
- **Average Teacher Predicted Grade** (which considers your child's effort, mock performance, and FFT5 target)
- **Average Attendance, Effort, and Behaviour Grade**

These averages will give you a clear picture of how your child is progressing in comparison to the cohort. Following this, you will find individual subject reports, which outline your child's performance in each area, including their behaviour and effort grades. Further guidance can be found here: <https://www.miltonkeynesacademy.org.uk/wp-content/uploads/2024/12/Report-guidance.pdf>

It's important to note that while the mock exams are a valuable reflection of your child's current level, their progress is ongoing. We are committed to supporting every student's growth, and one keyway we will do this is through **P6 interventions** beginning in January for all core subjects. These intervention sessions are designed to provide extra support and revision opportunities, and we strongly encourage your child to attend if they have been invited. These sessions will give them the chance to strengthen their understanding of key concepts and refine their exam technique.

Above all, we ask that you focus on the positive mental health of your child during this time. Year 11 can be a stressful year, but with your continued support, your child can build resilience and stay motivated. Encourage your child to take regular breaks, manage their time effectively, and reach out for help if needed. The road ahead may be challenging, but it is also full of opportunities for growth.

Thank you for your ongoing support. If you have any questions or would like to discuss the report in more detail, please don't hesitate to get in touch.

Kind regards,

Donna Singleton

Assistant Principal
